

February 25th, 10:00 – 12:00 CET, event STARTUP3 PITCH CHALLENGE will take place online via ZOOM.

What are the investors expecting from the pitches that are presented in the current virtual world?

The Startup3 Innovation Pitch Challenge invites startups to a meetup where we will talk about the best practices of what makes the online pitch perfect. We'll have great keynotes on the topic, presented by industry professionals, to give you the tips and tricks to help you become better. Be active! Be prepared to ask questions!

In the second part of the meetup the attendees will have an opportunity to see a pitch battle where pre-selected startups from the Startup3 accelerator and Vidzeme region will fight for the title of the best pitch.

Event is part of Startup3 project, Vidzeme Innovation week and EU Industrial week programs.

The STARTUP3 project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 871709
